MOSQUITOES? PHONE 3595

The Board of Health requests all householders in Honolulu and vicinity who are troubled with mosquitoes to telephone 3595 and tell him your troubles. The matter will be immediately attended to.

WHAT HE WANTED.

A salesman was recently advised by a brother ambassador of commerce to call on a certain tradesman with whom he had no account. He took the hint, called on the man and was received most generously.

"May I show you my samples?" inquired the salesman.

The tradesman did not object, and from an insignificant looking bag the traveler produced quite a surprising quantity of specimen goods.

"Well," said the affable shopkeeper when the bag was at last emptied "there's only one thing I want today."

Out came the order book.

"Thank you, Mr.," remarked the salesman, delighted at opening a new account, "and what is that?"

"Why," was the reply, "I want to see how you're going to get all those samples into that little bag again."

Exchange.

To clean a dark straw hat smear a little butter on an old piece of velvet and rub the hat. Leave the butter on for fifteen minutes, then polish with a dry piece of velvet.

PSYCHO-EDUCATIONAL CLINIC IN PUBLIC SCHOOLS

ST. LOUIS.—The St. Louis public schools opened for the winter with a department almost unique in American educational institutions—a psycho-educational clinic.

The department is under the direction of Professor J. E. W. Wallin of Pittsburg, Pa., who laid before the superintendent of schools his plans for the year's work.

All teachers in the city schools will send their backward pupils to Professor Wallin, who will have a complete report made on the child's health, home life and the habits of its parents.

It's As Natural as Water

to think of the classified ads—when you want anything—and it's

The Same With Everyone Else

That's why it's logical to use these columns. A trial is convincing. Anything from "soup to nuts" may be yours for a few cents, expended in this way.

The "AD MAN."

Hints For Mid-July

MANY women suffer a good deal during the heated summer term because they do not know how to adapt themselves to the torrid conditions. The first thing is to take life as easily as possible, avoiding all unnecessary exertion during the hottest hours of the day. That is not easily managed, but it can be done.

Allow yourself plenty of time to get everywhere—hurry and fluster are the most trying of exertions—and ruthlessly "cut" unimportant engagements, reserving yourself for those that must be kept. Get through necessary shopping as early as possible in the day, for, though the big shops are nearly all delightfully cool, the heat and turmoil of the streets are frightfully exhausting from noon till late afternoon.

Also let nothing interfere with your rest interval before dinner, a full hour if possible of absolute inactivity. Undress, slip on a rest gown and lie down in a cool, darkened room till it is time to dress for the evening; then have a warm bath, followed by a tepid sponge down or shower, and you will feel thoroughly refreshed. A cold shower is not advisable in very hot weather.

Avoid heavy and very rich meals. Light and digestible fare is required, consisting chiefly of fish, eggs, poultry, salads, cheese and fruit, sweets made with milk, cream and eggs, and so on, mostly cold, though too many laces should not be taken. They are responsible for most summer maladies. Iced drinks should also be taken in moderation, and the refreshing lemonade or "cups" made with light wines, hock, moselle or with fruit syrups are best. If spirits are taken at all it should be infrequently.

The face should only be washed with soap and water last thing at night, but it is very refreshing to spray it and the neck frequently with rose or elderflower water to which simple tincture of benzoin has been added, drop by drop, in the proportion of one teaspoonful of tincture to half a pint of rosewater. Dry with a soft handkerchief; then apply a little unfatted face cream. Smooth this off with the handkerchief and dust on a little good powder. The face wash mentioned is wonderfully cleansing and, with the cream, provides a great protection against freckles and sunburn.

One's eyes often feel hot and irritable in dry weather, chiefly on account of the dust, and they should be bathed frequently with this lotion: Dissolve a small teaspoonful of boric acid powder in a half pint of rosewater. Nearly fill an eye bath—or an egg cup will serve—with this and add hot water to make it just tepid. Hold the cup up to the eye and open and shut the eye several times in the lotion, which will not only wash and soothe the eye, but will penetrate through the tear ducts to the nasal canal and prevent the so called "summer influenza cold," which is really caused by dust. After washing the eyes in this way at night dry them and smear the smallest possible amount of pure white vasoline on the lashes.

Let Us Not Have the Ugly Hoopskirt OUR minds have dwelt much upon hoopskirts during the past few years, for we have been threatened with them month by month. We came very near getting them, so we thought, when the minaret tunic of last autumn inundated the land, then ebbed, and there is still a fearful feeling among the majority of folk that the present tendency is toward the revival of this obnoxious accessory.

Premet and Cheruit displayed regular hoopskirts in their spring exhibitions. No woman wore them outside of these salons, but the idea was exploited, and here and there one saw evidence that it had taken root.

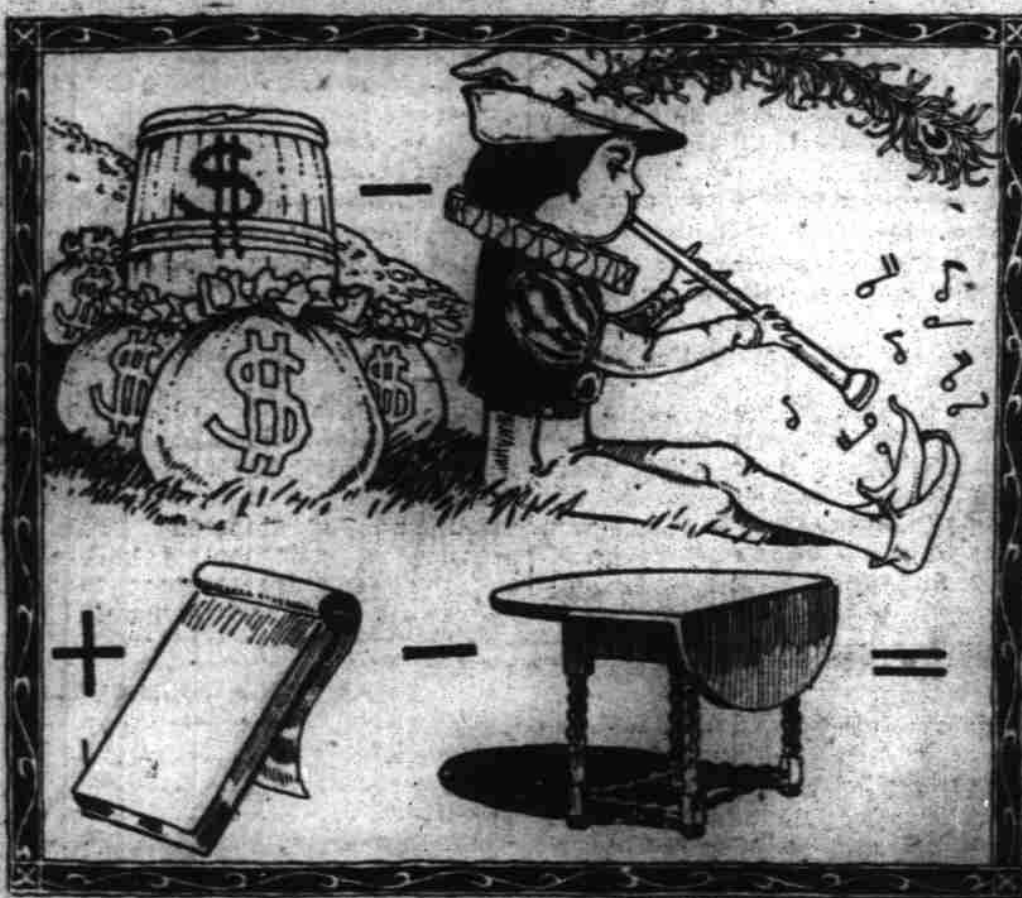

No fashion is widely adopted when it is first started or as it is first started. It is introduced and moderated and made suitable to the time and the hour. So, while the wide, hobbling, artificial stunts of the second empire

were not seriously thought of, there are ready and hoops in several skirts worn by women who last year would have thought the idea grotesque.

THE CONSIDERATE MISTRESS. THE considerate mistress is, first of all, a woman who has the admirable faculty of being able to put herself in another's place.

She knows how things should be done and understands how to give instructions as to the doing. She does not impose tasks that are impossible of accomplishment within certain time limits.

FOR THE NEEDLEWORKER. The latest bath slippers are of white Turkish toweling. They are likewise embroidered in blue in a French style.

Subtract and add as indicated and get a defensive structure. ANSWER TO YESTERDAY'S PUZZLE "Doctor, do I look old and colorless?"

WAR BREVITIES

Canadian Millionaire Gives \$500,000 for War. OTTAWA, Ont., Aug. 16.—A gift of \$500,000 has been made to the government by J. K. L. Ross, a Montreal millionaire. It was announced today. He states that the government is to make use of it as it sees fit for military or naval purposes. It is understood it will make the half million dollars thus donated, the nucleus of a patriotic fund which will be drawn upon to help support the wives and children of men who enlist in the expeditionary force and pay pensions to men of that force who are wounded while in service.

All Americans Found To Be Fit for Service.

PARIS, Aug. 23.—All the Americans who thus far have sought to enlist in the French army have been found physically fit and in excellent condition for service. The English were next in physical efficiency to the Americans. The greatest rejection among the volunteers has been the Russians, many of whom suffered from defective vision. Poles and Italians were next in order with disabilities.

Father of Admiral Jellicoe Is Dead.

LONDON, Sept. 9.—Captain J. H. Jellicoe, father of Vice-admiral Jellicoe, second sea lord of the admiralty, died yesterday at Ryde. Captain Jellicoe had spent his life in the merchant marine.

Yankee Woman Is Victim of Bayonet.

NEW YORK, Sept. 8.—The first wounded American woman to reach New York from Europe since the beginning of the war arrived here today aboard the steamer Saxonia from Liverpool. She is Mrs. C. J. Devlin of Kansas City and her wound is a bayonet thrust in the leg, inflicted accidentally by an excited Dutch soldier at the Hook of Holland.

The Saxonia brought 779 passengers nearly all Americans. Many of them suffered unusual hardships in Europe.

Many German Spies Arrested in Italy.

ROME, Sept. 6.—Many German spies have been arrested in southern Italy. Two arrested in Sicily were disguised as beggars and possessed plans and photographs of fortifications. Others were arrested at Taranto.

At Reggio the police discovered a concealed wireless station on the terrace of a German hotel.

Money Will Win War, Says Lloyd George.

LONDON, Sept. 8.—"We want every penny we can raise to help fight the enemy," said David Lloyd-George, chancellor of exchequer, replying today to a deputation from the municipalities which wanted the aid of the treasury in securing loans at cheap rates.

"We must come out triumphant in this struggle," continued the chancellor, "and as finance is going to play a very important part in it, we must husband our resources. We do not want a penny spent which is not absolutely essential to relieve distress. In my judgment the last few hundred millions may win this war."

"The first hundred million our enemies can stand as well as we can, but the last they cannot thank God, and therefore I think cash is going to count much more than we imagine."

NICOLAIEFF DEEMED OF GREAT IMPORTANCE

LONDON, Sept. 8, 1 p. m.—Great strategical importance is attached to the Russian capture of the fortress of Nicolaieff, in Austrian Galicia. It is situated at a junction of railroads and has here strong bow-shaped fortifications and intrenchments on both banks of the river Dniester to protect the railroad bridges. Its population is largely Polish. It includes 4000 Jews and a garrison of approximately 10,000 men.

DUKE OF WESTMINSTER AGAIN SHOWS BRAVERY

PARIS, Sept. 6.—The Duke of Westminster has again displayed his bravery, according to Le Gaulois.

This time the Duke, who had previously saved the life of his friend, Captain Grenfell, in action, was carrying military despatches near Lille to Sir John French, whose aide he is, when he was attacked by Germans. They unloading their carbines and showered the Duke's motor with lead.

One bullet struck the Duke's companion, who lay dying. As his comrade collapsed the Duke stood up on the car and saluted the dying man.

ALBANY, N. Y., Aug. 30.—A request from Canadian military authorities that Gov. Glynn take steps to prevent aviators from this state flying into the Dominion was referred to the federal authorities today on orders from the governor.

The request was prompted, the Canadians say, by their fear of activities by spies.

SAN FRANCISCO, Aug. 30.—Government agents discovered today and stopped at the last moment the shipment of a huge biplane to the Canadian frontier at Rainbow. The aeroplane was heavily armored with nickel steel and carried a 30-pound Colt rapid fire gun.
